Patients seek Dr. Kulbhushan Attri's expertise for diabetic foot check-ups, foot assessments, and lower extremity wound care. His comprehensive approach to foot health makes him a leading specialist in this area.

4. What is Dr. Kulbhushan Attri's specialization?

Dr Kulbhushan Attri specializes in Orthopaedics. He has expertise in treating conditions such as Carpal Tunnel Syndrome, Shoulder Impingement Syndrome, Sports Injury. His key treatments include Ankylosing Spondylitis Treatment, Pelvis Fracture Treatment Management, Sports Injury Treatment Management.

5. What are Dr. Kulbhushan Attri's medical qualifications?

Dr Kulbhushan Attri holds MBBS, MS, D-Orth, MCh (Liverpool, UK), reflecting his comprehensive education in the field of Orthopaedics.

6. How many years of experience does Dr. Kulbhushan Attri have?

Dr. Kulbhushan Attri has 46 years of experience in orthopedics. His extensive career encompasses numerous medical facilities.

7. Who is an Orthopedist?

Orthopedists are medical doctors specializing in the diagnosis and treatment of musculoskeletal disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. These specialists provide comprehensive care for skeletal system problems.

8. What is the difference between an Orthopedist and an Orthopedic Surgeon?

Orthopedists manage musculoskeletal conditions, offering pre- and post-surgical care. Orthopedic surgeons provide identical care but also perform surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Does an Orthopedic Surgeon treat foot and ankle problems?

Yes, orthopedic surgeons specialize in musculoskeletal conditions, including foot and ankle issues. They treat various problems such as bunions, ankle sprains, arthritis, and sports injuries. Diagnosis often involves imaging, and treatment plans vary depending on the condition's severity.

10. Do I need a referral to see an orthopedist?

No referral is required to schedule an orthopedist appointment. Consultations are available at clinics and healthcare centers. However, a general physician may refer patients after initial assessment of musculoskeletal issues for specialized orthopedic examination.
