4. What are Dr. Pranoti Deshpande's medical qualifications?

Dr Pranoti Deshpande holds MBBS, MD (Dermatology, Venereology and Leprosy), reflecting her comprehensive education in the field of Dermatology.

5. How many years of experience does Dr. Pranoti Deshpande have?

Dr. Pranoti Deshpande possesses six years of experience in dermatology.

6. Who is a dermatologist doctor?

A dermatologist is a medical doctor specializing in the diagnosis and treatment of skin, hair, and nail disorders, as well as mucous membrane conditions. They are also trained in cosmetic dermatology procedures. Dermatologists manage a wide range of skin conditions, including acne, psoriasis, and skin cancer, among over 3,000 others, helping patients improve their overall skin, hair, and nail health and appearance.

7. When should I consult a dermatologist?

Consult a dermatologist immediately for abnormal skin, hair, nail, or mucous membrane symptoms. Dermatologists also address cosmetic concerns and diagnose serious conditions like skin cancer.

8. Should one consult a dermatologist for laser treatment of skin problems?

Yes, you can consult a dermatologist for laser treatment of skin problems. A dermatologist is professionally trained to carry out skin grafts and laser treatments. For laser treatment, they use a special light beam to treat various skin complaints. Such skin complaints can include tumours, warts, moles, tattoos, birthmarks, scars, wrinkles, and unwanted hair.

9. What services do dermatologists offer?

Dermatologists treat various skin conditions including vitiligo, acne, dermatitis, eczema, fungal infections, hair disorders, nail problems, psoriasis, and skin cancer. They also perform procedures like biopsies, chemical peels, cosmetic injections, cryotherapy, hair removal and restoration, and laser surgery.

10. What is the difference between a cosmetologist and a dermatologist?

Dermatologists and cosmetologists both focus on outward appearance. However, dermatologists are medical doctors specializing in skin, hair, nail, and mucous membrane diseases and treatments. Cosmetologists, conversely, are not medical doctors; they provide aesthetic services like hairstyling and haircutting, focusing on beauty enhancements.
