Frequently Asked Questions

1. Where does Dr. Puneet Bedi practice?

Dr. Puneet Bedi's practice is located at Apollo Hospitals, Delhi. This Apollo hospital offers comprehensive healthcare services.

2. Who is Dr. Puneet Bedi?

Dr Puneet Bedi is a renowned Obstetrician & Gynecologist with over 32 years of experience. He practices in Delhi at Apollo Hospitals Delhi. Dr Puneet Bedi holds a degree in MBBS, MD. He provides treatments including Hysterectomy, Laparoscopic Ovarian Cyst Removal, IVF & Fertility Treatments. He specializes in treating conditions like Polycystic Ovary Syndrome (PCOS), Endometriosis, High-Risk Pregnancy.

3. Why do patients choose Dr. Puneet Bedi?

Patients select Dr. Puneet Bedi for a range of gynecological services, including Medical Termination of Pregnancy (MTP), fertility preservation procedures, and laparoscopic gynecology. For detailed

information, please refer to his comprehensive medical profile.

4. What is Dr. Puneet Bedi's specialization?

Dr Puneet Bedi specializes in Obstetrics & Gynecology. He has expertise in treating conditions such as Polycystic Ovary Syndrome (PCOS), Endometriosis, High-Risk Pregnancy. His key treatments include Hysterectomy, Laparoscopic Ovarian Cyst Removal, IVF & Fertility Treatments.

5. What are Dr. Puneet Bedi's medical qualifications?

Dr Puneet Bedi holds MBBS, MD, reflecting his comprehensive education in the field of Obstetrics & Gynecology.

6. How many years of experience does Dr. Puneet Bedi have?

Dr. Puneet Bedi has 32 years of experience in Gynecology and Obstetrics.

7. Who is a Gynaecologist?

A gynecologist is a medical doctor specializing in the health of the female reproductive system. This includes the vagina, ovaries, uterus, and breasts. Gynecologists also have obstetrics training, managing pregnancy and childbirth.

8. What is the difference between a Gynaecologist and an Obstetrician?

Gynecologists manage women's reproductive health, while Obstetricians specialize in pregnancy, childbirth, and postpartum care. Many Gynecologists are also trained Obstetricians. During pregnancy, consultation with either is suitable; however, for general reproductive health issues, a Gynecologist should be consulted.

9. What procedures do Gynaecologists and Obstetricians perform?

Gynaecologists commonly perform procedures such as Dilation and Curettage (D&C), which involves removing the uterine lining, and Hysteroscopy, a minimally invasive treatment for uterine conditions. Obstetricians manage childbirth, providing care for normal deliveries and performing Cesarean sections (C-sections) when necessary to ensure safe childbirth for mother and baby. These specialists offer comprehensive women's health services, including high-risk pregnancy care and surgical interventions.
