Overview

Dr. Kavita Jain is a senior consultant in oncology pathology with over 15 years of experience. She specialises in oncopathology, with strong foundations in histopathology, cytopathology, and diagnostic laboratory medicine. She is trained in clinical pathology and has pursued a dedicated oncology pathology fellowship at Rajiv Gandhi Cancer Institute, New Delhi.

Her current role focuses on supporting precision diagnosis in breast and gynecological cancers through meticulous pathological assessment. She is known for her academic grounding and hands-on expertise across a wide range of clinical settings.

Dr. Jain brings precision, diligence, and collaboration to every case. She views pathology not merely as a diagnostic specialty but as a pivotal part of a patient's cancer journey. Her commitment lies in delivering accurate, timely, and actionable reports that guide effective treatment, always aligned with the multidisciplinary team's goals.

Experience

- Oncology pathology
- Histopathology and cytopathology
- Immunohistochemistry
- Cancer diagnostics and tumour subtyping
- Diagnostic pathology in breast and gynecologic cancers
- Integration of pathology findings into multidisciplinary cancer care
