Overview

Dr. Ajay Shukla is an accomplished Radiation Oncologist with over 9 years of experience, currently practicing at Apollo Hospitals, Lucknow. He holds an MBBS, an MD in Radiation Oncology, and a CCEPC certification, which reflects his commitment to providing advanced and patient-focused cancer care. His extensive training enables him to manage a broad spectrum of cancers using cutting-edge radiation therapy techniques, including image-guided and intensity-modulated radiotherapy.

Fluent in both English and Hindi, Dr. Shukla ensures clear, compassionate communication with his patients, helping them feel informed and supported throughout their treatment journey. He is known for his meticulous planning and precision in delivering radiation treatments tailored to each patient's diagnosis, with a focus on minimizing side effects and improving long-term outcomes. His approach combines clinical expertise with a deep understanding of the physical and emotional aspects of cancer care.

Dr. Ajay Shukla's dedication to continuous learning and evidence-based medicine makes him a trusted name in the field of oncology. At Apollo Hospitals, he collaborates closely with multidisciplinary teams to provide comprehensive care that addresses every aspect of the patient's health. His empathetic nature,

attention to detail, and patient-first philosophy have earned him respect among his peers and gratitude from countless patients.
